-2- 12-27-1917.

we beg to advise you that the number 759,364 being the total number taken as stated on our report is correct and by a clerical error the number taken from Slate Island No. 3 was given as 76,350 instead of 176,350 which is the correct number taken from that trap. Therefore will you please make this change upon our report and show the number of Humpbacks taken from Slate Island No. 3 to be 176,350 which will leave the total number taken stand as reported 759,364 which is correct.

We hope that this correction and the additional information herein contained will put our report in order and meet all of your requirements.

Respectfully yours

DETAILED REPORT OF SALMON FISHING OPERATIONS, BY LOCALITIES AND APPARATUS.

It is desired that this information be prepared with accuracy and detail, so far as the packers' records can by reasonable effort be made to furnish it. Different streams in the same bay or sound should be separately reported so far as the catch can properly be credited to each. Catches not certainly referable to particular streams may be reported under the head of the bay, sound, or region.
